NEW SHINE

ACOUSTIC SERIES

Basic information / Advantage / Contact

www.newshinelighting.com

NEW SHINE

Acoustic Specification

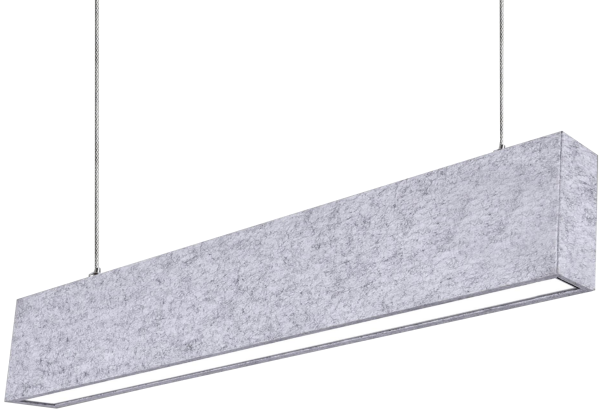

Item: PET Acoustic

Thickness: 9mm/ 0.35”, 12mm /0.47”

Ingredient: 100% polyester fibre

NEW SHINE

Acoustic Features

The raw material of PET acoustical panel is made of 100% polyester fiber. It is formed by high temperature and high pressure. Its characters are sound absorption, non-toxic, non- Irritant, odor-free, etc.

Acoustic Test Results

NO.	Tests Requested	Results
1	Noise Reduction Coefficient	NRC=0.3
2	ASTM E84-17	Class A

NEW SHINE

Acoustic Standard Colors

There are 38 colors for selection for most of items, a very few items due to special material or manufacturing processes involved, only have limited colors. Please consult our sales for details.

NEW SHINE

Acoustic Wood Texture

There are more acoustic wood texture for selection to meet the needs of customers.

Related Products

We offer a wide range of acoustic related products, including lighting fixture in acoustic and acoustic-only products.

NEW SHINE

Acoustic Lighting

Special Features:

1. Highly effective noise absorption, creating a comfortable and productive environment, increasing productivity.

2. With best-in-class illumination, sound absorption and aesthetic appeal, meeting the needs of many different types of architectural environments.

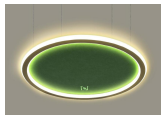

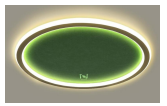

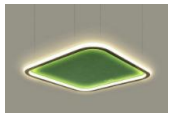

3. Greatly combine the elements of color, shape and sound, creating spaces that are as functional and conducive to great experiences.

4. Our client tested 10 acoustic lighting fixtures they bought from us in their specific space. We got the feedback the acoustic fixtures lowered the echo by 40% which was huge.

NEW SHINE

I.Cloud Acoustic Lighting

1. Ultra slim design, only 0.71" body. Silicone lens provides uninterrupted 300 degree illumination with good performance.
2. With great acoustic performance, has sound-absorbing, covering round and rectangle shapes.
